

Custom Peptide Synthesis

Description

Delivery Time

The delivery time: For 200 unpurified peptides or less, lead time will be two week, and 4 weeks for 200 purified peptides.

Prices include mass spectral analysis, HPLC tracing, and synthesis report.

Difficult or complex peptides will be quoted separately.

Discounts

Significant discount will be offered for large peptide orders or for first time customers.

Product Report

A complete QC report will be included with each delivered product such as HPLC profile, Mass Spectrometry and Synthesis Report. NMR, IR, UV, Elemental Analysis, Water Content and Amino Acid Analysis data will be available upon special request. But additional cost will be charged.

Confidentiality

Confidential Agreement will be signed upon request by customer to protect sensitive information such as peptide sequence information.
